

# PRODUCTION TAPPING SOLUTIONS

*Foolproof results developed over five generations.*

For over 115 years Jarvis Cutting Tools has provided its customers a competitive advantage through high performance products, on-time deliveries, and superior customer support.

We manufacture **application specific taps, drills,** and **rotary files** which improve the productivity of our customers and the quality of their products.

We are committed to you, quality, and innovation.

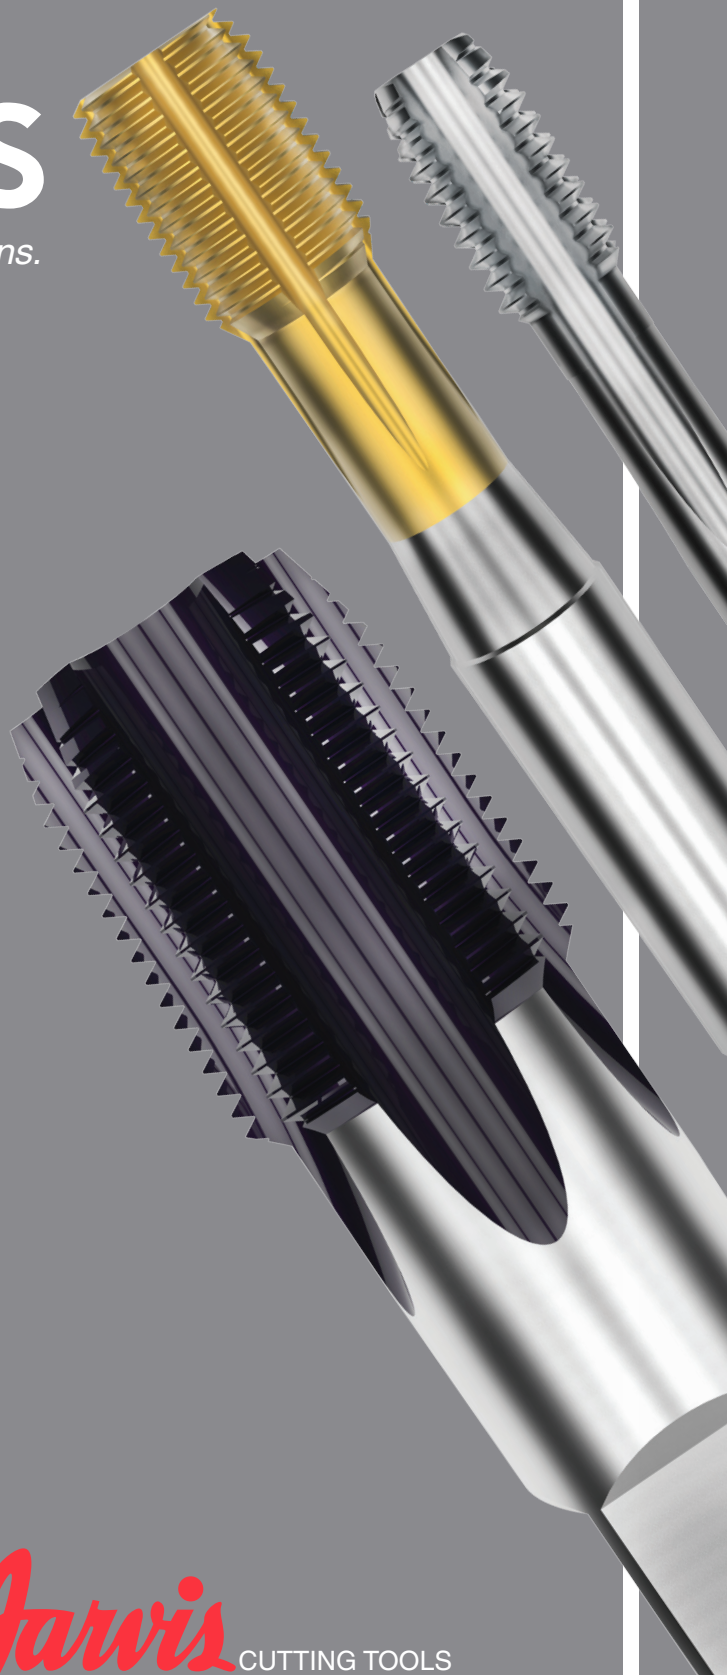

At Jarvis, our factory engineers, production managers, and owners all spend time on our customer's shop floor.

By building strong factory-to-factory relationships, we offer you application specific taps and customized services to optimize your productivity.

Please call one of our expert application engineers for more information.
