CUTTING TOOLS

# LET US INTRODUCE OURSELVES

WE ARE

*Jarvis*

Thank you for your interest in our products. We take a lot of pride in the work that we do and the tools we manufacture to make our customers' lives easier. This catalog features our newest product lines. If you are new to us, we hope you will take a moment to explore all that we have to offer you as a tap supplier.

WE HOPE TO MAKE YOU PART OF THE FAMILY

Jarvis is an expert at making taps. You are an expert at using taps. We find that building relationships with the users yields better results. Customers of Jarvis are part of the family. We offer our customers Direct, Personal Contacts, Local Support and a Factory - to - Factory Relationship.

# ABOUT JARVIS

Since 1901, Jarvis Cutting Tools has been a catalyst for quality and inspired innovation in the Cutting tool industry while remaining a family owned company. Throughout the generations our mission has always been the same; to deliver you the best possible tool for your application and to provide you with exceptional customer service every step of the way.

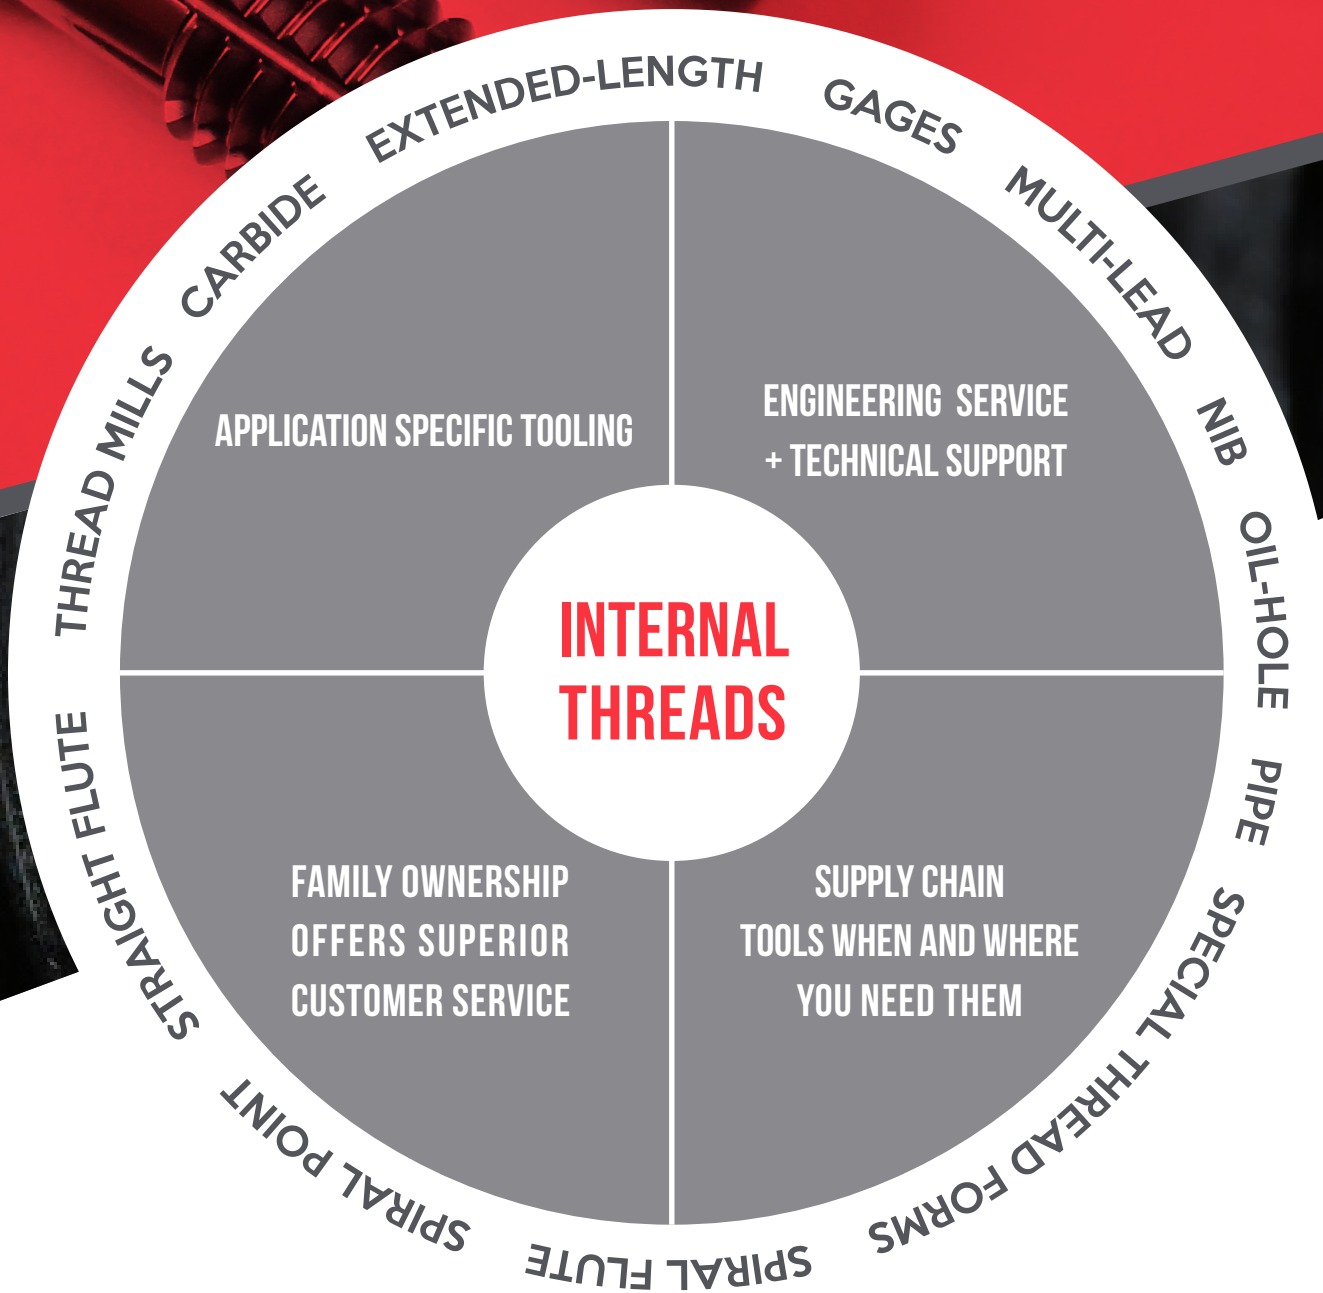

Through teamwork, innovative design, quality craftsmanship, and continuous improvement Jarvis continues to engineer and manufacture tools that outlast and outperform the competition. And these aren't just words we're presenting here - they've been **tested** and the results are **proven**.

We understand that price is important, and we offer competitive pricing and distributor discounts but the true measure of a tool's value is its in-factory performance.

Where we truly excel is on supplying customers with application specific tooling solutions (i.e. specials) however, we are continuing to expand our off-the-shelf solutions to meet industry demand with exciting new product lines such as this. If you don't see what you need offered in here we encourage you to submit a quote to our engineering team. We are able to modify the tools listed in this catalogue to meet your individual needs (\*see page 45).

# INTERNAL THREADS ARE OUR PASSION

...AND IN 115 YEARS WE HAVE BECOME THE BEST AT IT!

# OUR TAPS SIGNIFICANTLY RAISE THE BAR FOR OUR CLIENTS

## TEST 1

Jarvis Taps	Existing Taps
6,635	3,200

## TEST 2

Jarvis Taps	Existing Taps
22,495	16,000

## IF YOU DON'T TRUST US — THEN TEST US

- We are proudly made in the USA. We manufacture in Rochester, NH and offer our customers fast shipping
- High quality tools is our thing - Through an extensive quality program, documented measurements of all the critical characteristics, in-house testing and an extensive training program we diligently defend Jarvis's long-standing reputation
- We have a 99.4% order acceptance rate
- 95% on time delivery

**We Get It.** Switching suppliers is work and there is always a risk. We want you to feel confident that switching to Jarvis will be a positive experience and that in the end it will yield positive outcomes to your productivity and bottom line.

# JARVIS TAPS OUTPERFORM THE REST

*Did you know?*

**25%** of the US Market  
uses **our form taps**  
for their applications.\*

# PIPE TAPS

Jarvis offers one of the most extensive inventories of pipe taps in the market. Not only do we stock common items, we also offer items like:

- Small Shank
- Extended Length
- Interrupt
- Short Projection
- Whitworth Thread Form
- Form Taps (Jarflos)
- And Many Others

Size	Description	Flute

# JARFLO TAPS

You will not find any forming taps (Jarflo's) that work as well as ours!

Some of the basic characteristics of the two product lines:

## Jarflos (Standard Performance)

- Premium Powdered Steel
- Crest Radius Design (versus Truncated Flat)
- TiN Coating
- Designed for General Purpose Applications

## Jarflo Ultra (Premium Performance)

- Premium Powdered Steel
- Crest Radius Design (versus Truncated Flat)
- TiCN Coating
- Geometry optimized for Low Friction
- Designed for Hard to Machine Materials (Stainless Steel)

# STUB JARFLO

These tools are design to operate in the Danly® In-Die Tapping Units and the Amada® Turret Press attachments.

## Jarflos (Standard Performance)

- Premium Powdered Steel
- Crest Radius Design (versus Truncated Flat)
- TiN Coating
- Designed for General Purpose Applications

## Jarflo Ultra (Premium Performance)

- Premium Powdered Steel
- Crest Radius Design (versus Truncated Flat)
- TiCN Coating
- Geometry optimized for Low Friction
- Designed for Hard to Machine Materials (Stainless Steel)

# IN-DIE JARFLO

## PERFORMANCE + **ULTRA** PERFORMANCE SERIES

These taps are optimized for In-Die tapping applications. They are designed to work specifically with the Pronic tapping units, but also can be used in the Hutchinson and ATS tapping units.

### Jarflos (Standard Performance)

- Premium Powdered Steel
- Crest Radius Design (versus Truncated Flat)
- TiN Coating
- Designed for General Purpose Applications

### Jarflo Ultra (Premium Performance)

- Premium Powdered Steel
- Crest Radius Design (versus Truncated Flat)
- TiCN Coating
- Geometry optimized for Low Friction
- Designed for Hard to Machine Materials (Stainless Steel)

# NUCON 77

Jarvis' Nucon drills are engineered for drilling gummy materials like Aluminum. They have several advantages on standard HSS drills and carbide drills including:

- **Manufactured from premium HSS material**
- **118° Helical Point eliminates need for spot drilling**
- **118° Helical Point reduces exit burr**
- **All diameters are 2.64" OAL. Short length improves rigidity and simplifies CNC programming.**
- **Flute geometry almost eliminates the problem of Aluminum "packing" the flutes**

**2.64" Overall Length - 118 Helical Point**  
**Engineered especially for close tolerance drilling**

# COMBINATION DRILL - TAP

Combination drill - tap tools inherent capability of operating as a two-in-one solution provide cost savings and faster operative results. Jarvis combination drill and tap toolsets are uniquely strong & customizable to fit whatever your application needs are. Recommended for thru hole functions, Jarvis combination drill - tap tools can be set at 65-75% thread depending on what the unique application is.

In general, the drill point must break through (“thru”) the material before the tap portion begins its function for clean, efficient results. Therefore it’s important to verify the drill and thread lengths of the job so that the tool can be manufactured correctly. If you have questions about any of this, we have a team of engineers on staff to make the appropriate measurements and design the best tool for the job.

## KEY THINGS TO REMEMBER:

- Two operations on each tool
- Ground with close tolerances
- Made to reduce productions costs by up to 50%
- Available as stock tools, metric and pipe sizes, as well as blueprint options meeting exact specifications
- Drills are designed to tap between 65% and 75% thread

## Further notes:

- For use on thru hole applications only
- Drill point must penetrate through part prior to thread initiation
- Spindle speed should be set at normal for tapping specific material being machined
- As with any tapping operation, a reversing spindle is required

# COMBINATION DRILL-TAP

Jarvis offers combination drill - tap tools with self-centering points, and have them ready/off the shelf. Tap and reamer combinations can also be manufactured and our coveted piloted taps program can be utilized to create tools ground to close tolerances, built to meet your unique application requirements.

# DON'T SEE WHAT YOU NEED?

## LET'S GET YOU EXACTLY WHAT YOU'RE LOOKING FOR

The simple thing here would be to call us. We're happy to help talk through any unique application you're working on and need a tool for. That said, some tools aren't your "everyday" off-the-shelf kind of solution.

In that spirit, Jarvis makes a variety of special tools to satisfy and exceed customer expectations. When your print requirements cannot be fulfilled by a standard catalog item, Jarvis will design and manufacture what you need to your exact print specifications.

## HERE ARE SOME FEATURES JARVIS OFFERS:

- **Special tap dimensions including DIN, JIS, ISO, and custom**
- **Special Pitch and Pitch Diameters**
- **Multiple Leads for both Cutting and Roll Forming**
- **Special thread forms including:**
  - ACME
  - Buttress
  - British Association
  - Ball
  - Jarlock (Locking Thread Form)
  - Special Radii and Flank Angles
- **Special Tapers**
- **Coolant Hole Thru and Radial**
- **Carbide**
- **Bent Shank Taps for High Speed Nut Tappers and Screw Machines**

# FROM STANDARD → TO SPECIAL

## WHEN AND WHY TO SWITCH

Reducing the cost-per-hole offers you additional value. Just because it “works” doesn’t mean it’s “working” on all levels and vantage points. **Consider the following:**

### COST ANALYSIS/BENEFITS

- How frequently do you run this job/tool?
- How many of these taps do you purchase per year?
- How many units do average per tap?
- What is the standard deviation?

Having an intimate knowledge of these areas will greatly impact your decision and, quite frankly, enable us to come up with a competitive solution to meet your unique tap tooling needs.

In order to create the most suitable, cost effective tool design to meet your specifications and requirements we encourage you to contact our engineering department. Each job is unique and certain information is needed by our engineering team to be able to design and quote a tooling solution.

■ TOOLING COST PER HOLE ■ LABOR COST PER CYCLE

# PRODUCT LINE OFFERINGS

## TAPS, THREAD MILLS, AND GAGES:

- **Straight Flute**
- **Spiral Point**
- **Spiral Flute**
- **Forming Taps (Jarflo's)**
  - In-Die Taps
  - Stub Jarflo's
- **Pipe Taps**
  - NPT(F); NPS(F); BSP; and Whitworth
  - Jarflo Pipe Taps
  - Interrupted and Semi-Interrupted
- **Oil Hole Taps**
  - Straight
  - Radial
- **Nib Taps**
  - Threaded Shank Taps
  - Bent Shank Taps
  - Davenport Taps
  - Couplings & Shanks
- **Carbide Taps**
  - Carbide Jarflo's
- **Extended Length**
  - Reduced Shank
- **Special Thread Forms**
  - ACME Taps
  - Jarlock (Spiralock®)
  - Ball or Wire
- **Special Alterations**
  - Keyways
  - Ettco Notches
  - Whistle Notches
- **Multi-Lead Taps**
- **Combination Drill/Taps**
  - English, Metric, and Pipe
- **Carbide Thread Mills**
  - Solid
  - Oil Hole
- **TiN Coated Thread Gages**

# HOW TO PURCHASE:

## FOR NEW CUSTOMERS

### NEW CUSTOMERS

Call and speak with one of our dedicated account managers to place an order **(603) 332-9000** during regular business hours **Mon - Fri 7:30 am - 5:00 pm EST.**

(or)

**Visit our website for the following forms:**

- Application To Set Up Account
- Credit Application
- Order Form

**Once completed, please submit online, email [info@jarviscuttingtools.com](mailto:info@jarviscuttingtools.com) or fax (1+ 603-332-8069) them to us.**

### RETURNING CUSTOMERS

Call or e-mail your dedicated account manager to place an order (or) submit/fax an order form

## CUSTOMER SERVICE & SUPPORT

Contact us whenever you need assistance. Our dedicated team is here to help you with pricing and availability, tool selection, application advice, operating guidelines, and technical support. Call (603) 332.900 anytime Monday through Friday from 7:30 AM to 5:00 PM EST. If you prefer email, you may direct questions to [info@jarviscuttingtools.com](mailto:info@jarviscuttingtools.com), please allow up to 24-hours for a reply.

## PAYMENT, SHIPPING, RETURNS AND OUR GUARANTEE

**We accept the following credit cards: American Express, Visa, MasterCard, and Discover.**

If you choose to pay with a credit card, please be sure that you have mentioned that to your Account Manager. We will need the credit card number, expiration date and billing address.

**SHIPPING:**

Orders are shipped Monday through Friday, and in most cases, standard items ship within 24 hours. If you need rush shipping please contact your account manager. We will hold orders for up to 7 business days to allow temporarily out-of-stock items to finish production. If we expect that your order will not ship within 7-10 days we will attempt to contact you. Normal procedure is to ship all distributor orders by UPS, unless requested otherwise.

**RETURN POLICY:**

Please call customer support or email your account manager. A return authorization is required.

**COMPETITIVE PRICING:**

Prices are in US dollars. All listings, pricing, availability and specifications are subject to change at any time without notice. Pricing, photographic and typographical errors are subject to correction at any time. We offer competitive discounts for distributors and based on volume. Please contact your sales representative or account manager for discounts.

**QUALITY GUARANTEE:**

Jarvis products are manufactured and inspected to exacting standards. We stand by our US made tools. Your satisfaction is important to us. If you have any concerns over the quality please do not hesitate to contact us.
